Feb. 25, 1927.

Mr. J. H. Collier,
Talbotton, Ga.

Dear Mr. Collier:

I have your letter of February 21st and thank you for your very prompt response.

Enclosed find carbon copy of letter that I am sending out to other members of the Collier family, which gives you a little interesting history.

Make all the inquiry possible as to where Isaac Collier was buried. I told your brother several months ago that I was quite sure that you were a descendant of Isaac, and this connects you up.

Vines had a brother by the name of Myhill, who married the sister of former President Harrison and that is how your grandfather happened to have the name of Harrison in his name.

I am collecting quite an amount of data, which will come out later, and I will send you a copy.

Would appreciate it, if you would try to get a line on all the descendants of your grandfather and your great-grandfather, Isaac, and write me a long interesting letter regarding same at your earliest convenience.

Would be glad to have you visit us sometime.

With my usual kind regards, I remain

Very respectfully,

JCC:S

J. C. COLLIER.
